## # Tugas Mikroservices Relation

The screenshot displays the Postman interface with a workspace named 'My Workspace'. The left sidebar shows a collection of API endpoints under 'API/IBIK', including 'Programs', 'Program Study', and 'Student'. The 'Student' collection is expanded, showing endpoints like 'POST Insert Student', 'GET Find All Student', 'GET Find By Id', 'PUT Update Student', and 'DEL Delete Student'. The main panel shows a GET request to 'localhost:8080/api/student' with a status of '200 OK' and a response time of '87 ms'. The response body is a JSON object containing student information, including name, NPM, and program details.
